# ABOUT US

Established in 2006, Flamingo Car Care Tech Co., Ltd is a professional manufacturer and exporter which co-founded by Guangdong Hosen New Material Industrial Co.,Ltd. and Flamingo Car Care Tech Inc., engaged in researching, producing and selling of car care products, spray paint, special coating, industrial cleaning and surface treating agent.

Through 17 years of precipitation and accumulation, Flamingo owns the profound understanding of car care products, world's leading research and development ability, excellent planning team and manufacturing experience for nearly a century, which prosper the selling of Flamingo car care products in North America. To make more car lovers around the world to recognize and use Flamingo products, Flamingo Car Care Tech Inc. collaborates with Guangdong Hosen New Material Industrial Co., Ltd for the establishment of research and production

base, promoting the Flamingo car care products to all over the world.

The new production base is located in Wengyuan, Guangdong. With beautiful environment and convenient transportation, it covers an area of nearly 30,000 square meters, equipped with advanced experimental and production equipment specially introduced from USA, German and Switzerland. At present it owns 6 fully-automatic production line for aerosol, 1 for paste filling, 1 for liquid filling and 1 for emulsifying wax, with an daily production capacity of 150,000 cans. The production base has obtained the qualification for aerosol production in China, and passed the ISO9001 quality system certification and ISO14001 environment system certification. Owing leading USA technical standard and large production capacity, the base produces the Flamingo car care products, at the same maintains long-term friendly cooperative relations with many international well-known companies, and provides them with professional, complete OEM and ODM service.

## COMPANY PRINCIPLE

Innovation, Professional, Reliable,  
To Create Value for Customers!

# DE-RUST LUBRICANT

## De-Rust Lubricant

450ML\*24PCS/8.98KGS/0.022CBM  
Product Code:F007

### FEATURES:

Adopting special silicone ingredient, DE-RUST & LUBRICANT can foam a protective film on the metallic surface so as to prevent the surface from contacting with moisture and air, thus avoid the surface from oxidizing and rusting. It is widely applied in the protection of precision components, electric fitting contacts, iron and steel parts as well as supersensitive components. With high permeating ability, it is commonly used in the maintenance of machines, armament, electric tools and precision instruments. It can stop squeaking of chairs, door hinges, metal gate and vehicle parts, at mean time, eliminating moistures so as to prevent the surface from corroding and making sure of its good lubricating performance.

## Chain Clean / Chain Lube

220ML\*24PCS/5.65KGS/0.014CBM  
Product Code:F110/F108

### FEATURES:

1. Stops Squeaks: Penetrates and lubricates hinges, castors, springs, taps, handles, windows, pedals and office chairs. 2. Drives Out Moisture: Drives out water on metal surfaces e.g. electrical contacts, car ignitions, tools (incl. garden). Motorcycle engines and outboard motors. 3. Cleans And Protects: Dissolves crayon marks, grease, tar, gum, adhesives. Loosens hard water deposits. Leaves protective film against rust and corrosion on bikes, prams, chrome parts, motorcycles, outboard motors and tools. 4. Loosens Rusted Parts: Thoroughly penetrates and loosens rusted, corroded and seized nuts, bolts, controls, cables and other fasteners. 5. Frees Sticky Mechanisms: Un-jams and lubricates door locks, zippers, sewing machines, controls, linkages and cables.

# NANO CERAMIC COATING

## Nano Ceramic Coating Kit

(30ML+50MLx2)\*12PCS/8.36KGS/0.03CBM  
Product Code:F101S

### APPLICATING CAPACITY:

Bottle A : Degreasing Agent      Bottle B : Nano Ceramic Coating  
Bottle C: Polishing Protectant

### USAGES:

A. Wash the car with F030 Car Shampoo, remove all dirties on the paint surface carefully. B. Use polishing machine with F050 Rubbing Compound/ F051 Polishing glaze/F052 Premium Coating Film(subject to paint conditions, new car use F052 only), then wash and dry the car. **VERY IMPORTANT** with this step to make sure the paint in perfect gloss. C. Spray Degreasing agent(Bottle A) on the car paint to remove grease, and wash by clean water then dry by air blower. D. Visual check with all place, ensure no any dust, scratch on the paint. E. Pour the NANO CERAMIC COATING(Bottle B) on the matched sponge and small cloth with moderate amounts, then apply it to the surface equally in the order of up-down and left-right. If uneven lines left in plating period, so will left after plating. So please be sure to apply evenly, **DO NOT POUR NANO CERAMIC COATING ON THE CAR DIRECTLY.** Please operate with small area(50\*50cm) each time, one piece finished then start another. Avoid large-area operation. F. Nano Ceramic Coating operating time as below, for reference only:

| Temperature             | <10°C | 10-15°C | 15-20°C | 20-25°C | >25°C |
|-------------------------|-------|---------|---------|---------|-------|
| Solidify time(minutes)  | 15    | 10      | 5       | 3-5     | 1-3   |
| Operating time(minutes) | 10-15 | 5-10    | 3-5     | 2-3     | 1     |

G. After complete the coating with all paint surface, wait 1 hour to let coating film dry. H. Spray POLISHING PROTECTANT (Bottle C) on dry coating film and polish it equally. I. Visual Check with all coating film to avoid faulty area. J. Please wait 2 hours after all operation, to let it crystallize completely for the best effect. The car can be moved after waiting time. But do not wash it or pour water on it in 3 days. In case of water contact, dry off immediately. K. Flamingo advise to use POLISHING PROTECTANT(Bottle C) in 2nd time after 3 months.

SPRAY PAINT

Flamingo Car Care Tech. Co.,Ltd., your reliable partner !  
We're looking forward to building long-term business relationships with you !  
Now worldwide distributors wanted !!!

**CONSISTENT QUALITY**

- A. More than 12 years car care products exporting experience
- B. No.1 in velocity of development in this field
- C. All products engineered in USA
- D. Strict quality control system has been built based on cooperating with US market more than 10 years

**INNOVATION**

- A. Professional R&D team
- B. Innovation is our core culture
- C. Your new idea can be embraced any time

**COMPETITIVE PRICE**

- A. Good sense of controlling cost
- B. Long-term partner relationships with our suppliers

**ON TIME DELIVERY**

- A. Full experience in handling export trade
- B. Delivery date is confirmed by ERP system, which includes every relevant department on production capacity and quality control

**SERVICE**

- A. Offer customize service
- B. "Customers first" is our service tenet
- C. A good listener to your requirement
- D. Instant response
